## Professional Summary

Results-driven and detail-oriented Web Developer with strong proficiency in JavaScript, React.js, Node.js, and the MERN stack. Adept at building scalable web applications and implementing best coding practices.

Strong foundation in computer science fundamentals, problem-solving, and database management. Passionate about crafting high-performance applications and continuously enhancing technical skills.

## Project

### E-commerce Platform (MERN Stack)

- Developed a fully functional e-commerce application using React.js, Node.js, Express.js, and MongoDB.
- Implemented secure authentication, cart management, and an intuitive UI for a seamless shopping experience.
- Optimized API responses to enhance performance and user experience.

### AI Code Reviewer (MERN Stack)

- Designed an AI-powered code review system that analyzes code and provides improvement suggestions.
- Integrated OpenAI API for intelligent feedback and ensured efficient error detection.
- Built a user-friendly dashboard to display detailed insights and recommendations.

## Education

**B.Tech in Computer Science - Dronacharya Group of Institutions (2022-2026) 12th Class - Vivekanand School (2022) 10<sup>th</sup> Class - Florence Public School (2020)**

## Technical Skills

Frontend: HTML, CSS, JavaScript, React.js

Backend: Node.js, Express.js

Databases: MongoDB, SQL

Tools & Technologies: Postman, Git, GitHub

Other Skills: Web Development, API Development, Authentication & Security, Problem-Solving

## Soft Skills

- Strong communication skills
- Problem-solving ability
- Team collaboration
- Adaptability
